

Technology Project Management

Recommended research tools for TEPM 6391/6395

Databases

Business Source Complete

Includes scholarly business journals, market reports, industry profiles, conference proceedings, and even books.

ABI/Inform

"Trade & Industry" : Contains in-depth coverage of companies, products, and industry trends

"Global" : Info on business conditions, management techniques and theory, and corporate strategies.

Emerald Fulltext

Fulltext of various journals published by Emerald, several of which deal with management topics.

Compendex

A good place to start for any engineering-related topic.

Web of Science

Excellent scientific database, especially for natural sciences. Particularly useful for following references.

IEEE Xplore

Full-text IEEE/IE articles, conference proceedings, and standards.

PsycInfo

Great psychology database. Many psychology articles discuss data collection methods for case studies.

***Remember!** There are more databases that may be good for your particular topic.
Try browsing the databases by topic (Homepage > Research Tools) or ask a librarian for help*

Reference Works

EngNetBase: CRC Handbooks
